1. Sow grass seed — as early as soil can be worked. Choose Scotts brand that makes the lawn that suits your needs.

Good soil or poor, to insure quicker sod and stronger roots, spread TURF BUILDER when you sow seed.

2. Feed your grass — urgent need for all lawns at this time. Like a growing boy, grass left hungry is apt to look "peaked" soon as warm weather arrives.

3. Offset soil acidity — help grass by applying bonus-benefit Scotts SOIL IMPROVER rich in soluble iron, magnesium and sulfur for extra sparkle.

4. Stop the bugs — Spread COPE where Ants are active. Also effective for grub-proofing lawns in areas bothered by turf-destroying grubs.

When you get rid of grubs and similar soil insects, marauders like skunks and moles go elsewhere in search of food.

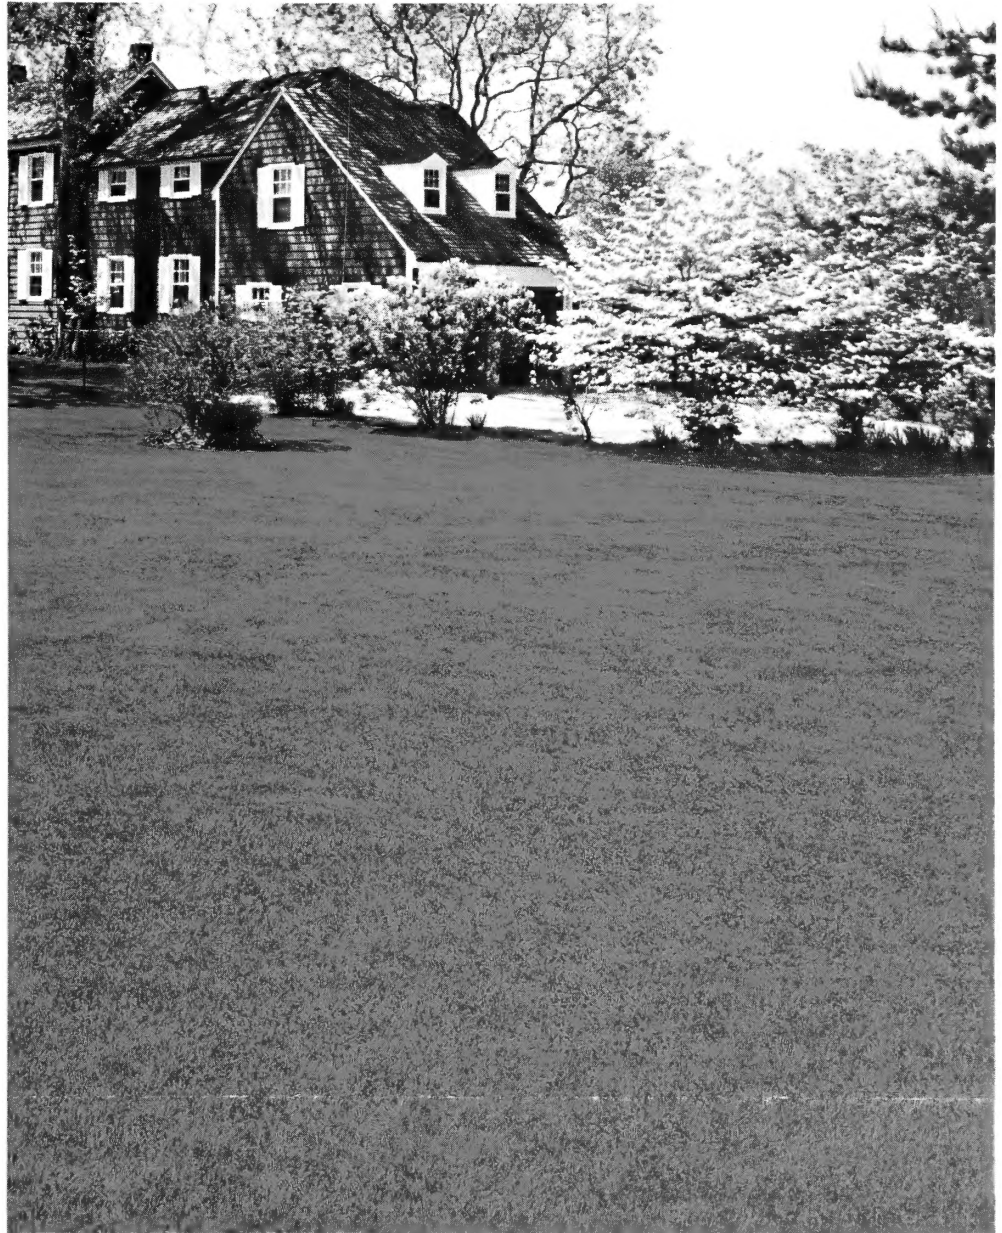

5. Mow as soon as anything to cut — avoid bleached-out, spindly grass that follows if you allow lawn to grow too tall before its first cut.

Use a sharp mower to keep from bruising leaf tips and dulling lawn color.

Scotts Spreader setting numbers clearly shown on every package.

PRESCRIPTION TO A BETTER LAWN

1. Choose the right Scotts product.
2. Enlist the aid of the Scotts Spreader for proper application.
3. Exercise judgment in timing and planning.

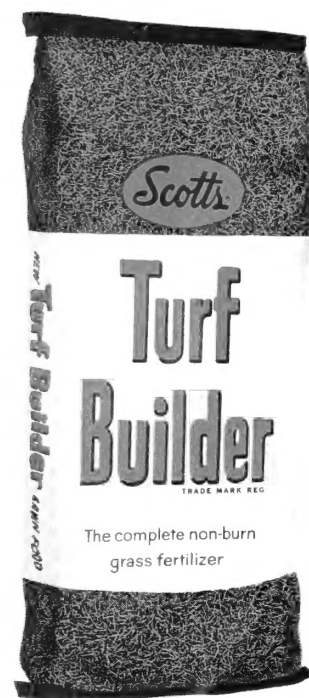

... comes in 3 kinds of lawns
for the 3 different lawn needs

Choose your grass seed as you choose your clothes — for the occasion or need. For the dress-up kind of lawn you will want Scotts PICTURE. For extra-rugged use, Scotts PLAY. For most lawns, good looks, good wear, choose Scotts FAMILY. When you buy Scotts Seed you get the best. It is 100% perennial, in blends that make happy, handsome turf exactly right for your needs.

Spring seeding and feeding improve any lawn

TURF BUILDER® produces greener, thicker grass without extra mowing

New TURF BUILDER is the complete non-burning grass food. Feeds your grass day by day, the way food is needed. Produces steady, no surge growth—the sparkling lawn you want.

Easier to use—a 12-year old can lift the bag that feeds 5,000 sq ft. Spreader rolls easily, even on soft ground. Nicer to use—no dust to make people sneeze, no fertilizer smell to annoy you or the neighbors, nothing to attract flies or vermin.

Non-burning even on tender seedling grasses. No need to water in.

Supplies best meal the lawn ever had. Economical, too—the best buy for the fertilizer dollar.

SCOTT'S® SEED is 100% perennial

... and the kind you need to plant a lawn that lasts. You won't want to waste your time and money on cheap, chaffy seeds and the quick-to-quit grasses. They make a sudden spurt of growth—then fade away. Scotts supplies only the best in perennial

grasses, seeds full of life and growth. One customer wrote, "Your seed is plump and heavy. It falls to the ground and grows... doesn't blow away like chaff". Stop that expensive reseeding. Plant Scotts, in the blend that makes the lawn you want.
